

Key Challenges with TIBCO EBX

Complex Customizations:

TIBCO EBX relies heavily on Java for configurations, slowing down rollouts and limiting usability to specialized technical teams.

Innovation Lag:

TIBCO EBX relies heavily on Java for configurations, slowing down rollouts and limiting usability to specialized technical teams.

User Interface:

Users find the EBX interface clunky and unintuitive, complicating simple updates and customizations.

Cloud Deployment:

EBX is not optimized for cloud environments, often requiring costly infrastructure trade-offs.

Upgrade Issues:

Upgrades such as from EBX5 to EBX6 are slow, costly, and often introduce new bugs and stability issues.

Semarchy SDP vs. TIBCO EBX MATRIX

Comparisons	Semarchy	TIBCO EBX
★ Deployment & Maintenance	Easy	Moderate
Single Solution for Core MDM	Yes	Yes
Native Multi-Domain/Multi-Use	Yes	Yes
★ Platform Flexibility & Integrations	High	Moderate
★ Deployment Options	On-Prem, Cloud, Hybrid, SaaS	On-Prem, Cloud, Hybrid
★ Performance/Scalability	High	Medium
Workflows & Stewardship	Advanced	Advanced
★ Technical Expertise Required	Minimal	High
★ Core Developer/User Experience	Intuitive	Complex
★ Pricing & Contracting	Easy	Moderate
Native AI/ML Capabilities	Yes	No
★ Customer Support/Satisfaction	High	Moderate
Market Position	Leader	Leader

Advantages of Switching to Semarchy

Rapid Deployment:

Semarchy's Rapid Delivery Blueprint enables go-live in as little as 12 weeks with measurable ROI within the same timeframe.

Gartner gives Semarchy MDM an overall rating of 4.7/5, while TIBCO EBX gets just 3.9/5 (April 2025).

No-Code Flexibility:

Semarchy allows business users to manage data models, workflows, and validations without coding, significantly speeding up development and adoption.

The product itself is easily configurable, the built-in UI requires little to no adjustment out of the box, and the implementation on our AWS platform went smoothly. Support during implementation via their [Semarchy's] Client Success program was very helpful.

Project Manager, December 2023 (Gartner Peer Insights)

Integrated Data Platform:

Unlike EBX, Semarchy offers a cohesive platform that integrates MDM, data integration, and data intelligence.

Cost Efficiency:

Semarchy provides a transparent, scalable pricing model and reduces the need for specialized developers, cutting long-term costs.

Everyone loved Semarchy's strong user interface. Some other products were very technical, so weren't appealing, but Semarchy's intuitive, business-driven design helped us sell the platform to non-technical executives. We were also able to get our data onto the platform quickly. This let us get up and running straight away and showcase the benefits of Semarchy to stakeholders.

Anish Raivadera, MDM Technical Lead, Dentsu

Seamless deployment:

Fully optimized for modern cloud environments like AWS, Azure, and GCP, supporting SaaS, PaaS, or hybrid deployments.

Customer Support and Training:

Semarchy offers extensive support and training resources to ensure smooth migration and long-term success.

Gartner gives Semarchy MDM 4.3/5 for ease of deployment, administration, and maintenance, while TIBCO EBX gets 3.9/5 (April 2025).

Accelerate innovation and unlock value across your enterprise

The Semarchy Data Platform drives measurable insights, efficiency, and productivity for team members at every level. See how Semarchy can transform your business with proven results.

38%

faster insights with the Semarchy Data Platform

~5.2x

increase in productivity of data FTEs gained annually

50%

less time spent training end users, compared to other data platforms
